Anshul Ramprasad

AI Solutions Engineering | Customer Discovery, Integrations & Adoption
anshulramprasad@gmail.com | +60 12-298-1192 | Kuala Lumpur, Malaysia | linkedin.com/in/anshulramprasad

SUMMARY

Customer-facing AI solutions builder who connects enterprise workflows to practical agents, integrations, and automation. Combines discovery, solution design, prototypes, pilots, evaluation, and enablement with hands-on Python, APIs, RAG, and analytics experience. Translates technical tradeoffs into clear decisions for engineering teams, users, and customer stakeholders.

WORK EXPERIENCE

TWIMBIT MALAYSIA **Sep 2023 - Present**
Lead Product Manager, AI & Growth | Previously Consultant & Research Analyst *Kuala Lumpur, Malaysia*

Rae | Enterprise Sales Enablement Agent

- Led product and solution work for Rae, a sales-enablement agent serving 350+ registered CelcomDigi Enterprise Business users, from workflow discovery and requirements through technical validation, launch planning, and adoption.
- Ran discovery sessions with account managers across six enterprise verticals; reframed broad requests into concrete use cases, solution requirements, prototype scope, dependencies, and success measures.
- Personally configured and improved RAG, web search, prompts, source handling, and automatic routing using evidence from approximately 5,000 conversations; contributed hands-on work with FastAPI, Weaviate, and AI coding tools.
- Built a 104-case multilingual evaluation pipeline, combining LLM-as-judge scoring and human review to assess representative workflows, diagnose failures, and validate solution changes.
- Built SQL/PostgreSQL analytics pipelines and Metabase dashboards; used adoption evidence and enablement programs to help recover monthly active users from 15 to 175.

Rae Engage | Customer-Facing AI Agent | View agent

- Owned Rae Engage, a customer-facing lead-qualification agent on CelcomDigi's business website, from use-case discovery and focused pilot scope through build planning, UAT, and launch readiness.
- Contributed directly to development and shaped multi-turn conversation flows, consent, lead qualification/scoring, structured capture, and Salesforce handoff requirements.
- Aligned sales, CX, brand, product, engineering, and privacy stakeholders on integration boundaries, guardrails, human handoff, customer experience, delivery dependencies, and pilot success measures.

Technical, Product & Customer Leadership

- Led demos, client working sessions, and executive discussions, translating AI behavior, evaluation findings, implementation tradeoffs, and adoption needs into practical decisions.
- Led internal AI training reaching approximately 70 employees and co-led external cohorts for 150+ participants; taught model selection, prompting, assistant creation, use-case discovery, and repeatable workflows.
- Designed purpose-built assistants and AI-assisted research/content workflows with human validation; helped a three-person team increase annual output from approximately 150 to 400+ pieces with a 16-hour delivery SLA.

H ROSEN ENGINEERING MALAYSIA **Sep 2022 - Apr 2023**
Systems Implementation & Evaluations Intern *Kuala Lumpur, Malaysia*

- Developed Python scripts to automate econometric chart generation from ESG and macroeconomic datasets; contributed to an internal Python analytics course for financial analysts.

THE SEACEN CENTRE MALAYSIA **Apr 2022 - Jul 2022**
Data Processing & Analytics Intern *Kuala Lumpur, Malaysia*

- Automated ETL and data-conversion workflows for international client delivery; designed a Power BI pipeline-operator dashboard to improve access to operational data.

PROJECTS & ADDITIONAL EXPERIENCE

Sage | Solo-built voice-first health assistant | View project

- Solo-built a voice-first health assistant using Lovable, Supabase, Claude API, and Web Speech API; demonstrates end-to-end problem framing, UX, AI integration, data design, and delivery.

OpenClaw | Persistent agents and open-source project | GitHub

- Built and operated persistent-agent workflows, knowledge retrieval, scheduled jobs, and automation; open-sourced the implementation and documented practical uses, decisions, and limitations.

Real Estate Marketing | Independent automation work

- Delivered lightweight AI marketing automation around individual real estate agents' workflows, reducing production time by approximately 80%.

EDUCATION

Taylor's University, Kuala Lumpur, Malaysia **Aug 2019 - Dec 2022**
BCompSci (Hons) - Data Science and Artificial Intelligence | CGPA 3.4 | Dean's List

SKILLS

Solutions & Customers: Discovery workshops, workflow mapping, use-case framing, solution design, demos, prototypes, pilots, UAT, integration planning, technical communication, enablement

AI & Automation: Conversational agents, RAG, prompt/context engineering, tool use, routing, orchestration, evaluations, guardrails, structured outputs, n8n, OpenClaw

Development & Data: Python, SQL, PostgreSQL, FastAPI, Weaviate, APIs, Claude API, Supabase, Metabase, React, JavaScript/TypeScript (working familiarity)

Delivery Tools: Claude Code, Codex, Cursor, Lovable, Jira, Confluence, Figma, GitHub, product analytics, stakeholder alignment

CERTIFICATIONS

AWS Partner Sales Accreditation (2025), Google Data Analytics Foundations (2024), Salesforce Reports and Dashboards Superbadge (2022), Casugol Advanced Python Professional (2021)
