Anshul Ramprasad

Forward Deployed Product Management | Customer Outcomes & Enterprise AI

anshulramprasad@gmail.com | +60 12-298-1192 | Kuala Lumpur, Malaysia | linkedin.com/in/anshulramprasad

SUMMARY

Enterprise AI product leader who turns customer workflows into useful, adopted agents. Owns discovery, roadmap, pilot scope, requirements, stakeholder alignment, technical validation, launches, and iteration. Combines customer success, product marketing, enablement, and analytics with hands-on AI development to connect delivery decisions to customer outcomes.

WORK EXPERIENCE

TWIMBIT MALAYSIA **Sep 2023 - Present**

Lead Product Manager, AI & Growth | Previously Consultant & Research Analyst *Kuala Lumpur, Malaysia*

Rae | Enterprise Sales Enablement Agent

- Owned product strategy and delivery for Rae, a sales-enablement agent serving 350+ registered CelcomDigi Enterprise Business users, across discovery, roadmap, requirements, analytics, launch planning, and adoption.
- Led Rae Wednesday discovery sessions with frontline account managers across financial services, public sector, oil and gas, property, SME, and partner verticals; translated recurring workflow needs into priorities, user stories, PRDs, and prototypes.
- Combined 30 months of behavioral data and approximately 5,000 conversations with qualitative feedback to distinguish feature gaps from adoption, content, and workflow problems; used the findings to shape roadmap sequencing.
- Helped recover monthly active users from 15 to 175 through coordinated feature launches, product marketing, group enablement, and engagement programs; treated activation and repeat use as part of product delivery.
- Owned a 104-case multilingual evaluation pipeline and contributed directly to RAG, search, prompts, and routing improvements; translated agent failure patterns into requirements and technical priorities.

Rae Engage | Customer-Facing AI Agent | View agent

- Owned Rae Engage end to end, a customer-facing lead-qualification agent on CelcomDigi's business website; defined the problem, constrained the initial pilot, and set success measures, risks, dependencies, and delivery scope.
- Aligned enterprise business, sales, CX, brand/marketing, product, privacy, and engineering teams on conversation design, consent, lead qualification, scoring, structured capture, Salesforce handoff, and customer experience.
- Contributed directly to the build, designed UAT and guardrail requirements, and coordinated launch readiness; kept pilot decisions grounded in workflow value and the evidence needed for broader rollout.

Technical, Product & Customer Leadership

- Led client and executive working sessions, translating technical behavior, delivery dependencies, adoption findings, and implementation tradeoffs into decisions and follow-up priorities.
- Led internal AI enablement reaching approximately 70 employees and co-led three CelcomDigi training cohorts for 150+ participants; taught model selection, prompting, use-case design, and practical workflows.
- Owned content operations and a request-intake workflow for a three-person team; helped increase annual output from approximately 150 to 400+ pieces while supporting a 16-hour request-to-delivery SLA.

H ROSEN ENGINEERING MALAYSIA **Sep 2022 - Apr 2023**

Systems Implementation & Evaluations Intern *Kuala Lumpur, Malaysia*

- Developed Python scripts to automate econometric chart generation from ESG and macroeconomic datasets; contributed to an internal Python analytics course for financial analysts.

THE SEACEN CENTRE MALAYSIA **Apr 2022 - Jul 2022**

Data Processing & Analytics Intern *Kuala Lumpur, Malaysia*

- Automated ETL and data-conversion workflows for international client delivery; designed a Power BI pipeline-operator dashboard to improve access to operational data.

PROJECTS & ADDITIONAL EXPERIENCE

Sage | Solo-built voice-first health assistant | View project

- Solo-built a voice-first health assistant from problem framing and UX through AI integration and delivery, using Lovable, Supabase, Claude API, and Web Speech API for logging, check-ins, visit capture, and health history.

OpenClaw | Persistent agents and open-source project | GitHub

- Built persistent-agent workflows, a personal knowledge base, and scheduled automations; open-sourced the project and published practical lessons to help other builders understand its uses and limits.

Real Estate Marketing | Independent automation work

- Mapped individual real estate agents' marketing workflows and implemented lightweight AI automation, reducing production time by approximately 80%.

EDUCATION

Taylor's University, Kuala Lumpur, Malaysia **Aug 2019 - Dec 2022**
BCompSci (Hons) - Data Science and Artificial Intelligence | CGPA 3.4 | Dean's List

SKILLS

Customer & Product: Customer discovery, workflow mapping, product ownership, pilot design, roadmaps, PRDs, user stories, success metrics, UAT, rollout planning, stakeholder management

Adoption & Delivery: Customer enablement, workshops, executive communication, product marketing, feature launches, activation, retention, cross-functional delivery, commercial framing

Technical & Analytics: AI agents, RAG, prompt/context engineering, conversation design, evaluations, APIs, Salesforce handoff, Python, SQL, PostgreSQL, Metabase, funnel/cohort analysis

Tools: Claude Code, Codex, Lovable, n8n, Jira, Confluence, Figma, Miro, Notion, GitHub

CERTIFICATIONS

AWS Partner Sales Accreditation (2025), Google Data Analytics Foundations (2024), Salesforce Reports and Dashboards Superbadge (2022), Casugol Advanced Python Professional (2021)
