Product Management | Product Development, Growth & Go to Market

anshulramprasad@gmail.com | +60 12-298-1192 | Kuala Lumpur, Malaysia | linkedin.com/in/anshulramprasad

SUMMARY

Product manager who owns enterprise products from customer discovery and strategy through backlog prioritization, PRDs, development, launches, and growth. Uses SQL, product analytics, and user feedback to guide decisions and improve activation, retention, and adoption. Combines cross-functional delivery, product marketing, and technical fluency with measurable operating outcomes.

WORK EXPERIENCE

TWIMBIT MALAYSIA **Sep 2023 - Present**

Lead Product Manager, AI & Growth | Previously Consultant & Research Analyst *Kuala Lumpur, Malaysia*

Rae | Enterprise Sales Enablement Agent

- Owned product strategy, roadmap, and delivery for Rae, a sales-enablement agent serving 350+ registered CelcomDigi Enterprise Business users; balanced user needs, commercial priorities, technical constraints, and delivery capacity.
- Led structured discovery across six enterprise verticals and translated workflow problems into prioritized backlog items, user stories, PRDs, design specifications, and rapid prototypes for engineering and stakeholder review.
- Authored requirements for My Accounts, My Engagements, Persona Profiles, Proposal Generator Quick-Gen, Improve My Prompt, and Engagement Memory; clarified scope, dependencies, risks, and measures of success before handoff.
- Built SQL/PostgreSQL analytics pipelines and Metabase dashboards; analyzed 30 months of usage across active users, feature adoption, retention, churn, reactivation, and cohorts, and reconciled discrepancies between event and conversation reporting.
- Helped recover monthly active users from 15 to 175 through coordinated launches, product marketing, Rae Wednesday sessions, and enablement; used adoption and engagement depth to prioritize features with sustained value.

Rae Engage | Customer-Facing AI Agent | View agent

- Owned Rae Engage, a customer-facing lead-qualification agent, from discovery and problem framing through pilot scope, requirements, stakeholder alignment, build planning, UAT, and launch readiness.
- Defined the qualification workflow, consent, scoring, structured capture, Salesforce handoff requirements, and success measures; constrained the initial pilot to a focused mobile-plan use case.
- Aligned sales, CX, brand/marketing, privacy, product, and engineering teams on the customer journey and delivery dependencies; combined hands-on prototyping with product and technical review.

Technical, Product & Customer Leadership

- Established product analytics practices across Twimbit's product arm, standardizing metrics, reporting, and analysis to improve roadmap decisions and visibility into user behavior.
- Owned a content-request feature from 0 to 1, using Intercom and Typeform for intake, triage, and structured requests; helped a three-person team scale annual content output from approximately 150 to 400+ pieces with a 16-hour delivery SLA.
- Led client and executive reviews and internal AI enablement reaching approximately 70 employees; co-led external training for 150+ participants and contributed to response-engine improvements and a 104-case evaluation pipeline.

H ROSEN ENGINEERING MALAYSIA **Sep 2022 - Apr 2023**

Systems Implementation & Evaluations Intern *Kuala Lumpur, Malaysia*

- Developed Python scripts to automate econometric chart generation from ESG and macroeconomic datasets; contributed to an internal Python analytics course for financial analysts.

THE SEACEN CENTRE MALAYSIA **Apr 2022 - Jul 2022**

Data Processing & Analytics Intern *Kuala Lumpur, Malaysia*

- Automated ETL and data-conversion workflows for international client delivery; designed a Power BI pipeline-operator dashboard to improve access to operational data.

PROJECTS & ADDITIONAL EXPERIENCE

Sage | Solo-built voice-first health assistant | View project

- Identified a daily chronic-care tracking problem and solo-built a voice-first health assistant; scoped logging, check-ins, reminders, visit capture, document intelligence, and a health timeline using Lovable, Supabase, Claude API, and Web Speech API.

OpenClaw | Persistent agents and open-source project | GitHub

- Built and operated a persistent-agent project with knowledge retrieval and scheduled automations; open-sourced the work and translated implementation experience into practical thought leadership.

Real Estate Marketing | Independent automation work

- Designed lightweight AI marketing workflows around individual clients' needs, reducing production time by approximately 80% while supporting content output on demand.

EDUCATION

Taylor's University, Kuala Lumpur, Malaysia **Aug 2019 - Dec 2022**
BCompSci (Hons) - Data Science and Artificial Intelligence | CGPA 3.4 | Dean's List

SKILLS

Product Development: Product strategy, roadmaps, backlog prioritization, customer discovery, PRDs, user stories, design specifications, prototyping, UAT, cross-functional delivery

Growth & Go to Market: Activation, adoption, retention, reactivation, funnel/cohort analysis, feature launches, product marketing, enablement, customer feedback, stakeholder alignment

Data & Technical: SQL, PostgreSQL, Metabase, Python, Power BI, product metrics, analytics governance, APIs, AI agents, RAG, evaluation, AI-assisted development

Tools: Jira, Confluence, Figma, Miro, Notion, Intercom, Typeform, Claude Code, Codex, Lovable, GitHub

CERTIFICATIONS

AWS Partner Sales Accreditation (2025), Google Data Analytics Foundations (2024), Salesforce Reports and Dashboards Superbadge (2022), Casugol Advanced Python Professional (2021)
